Barbados Next-Gen Datacenter Summit at The Crane Resort

By: Alturna-Tech

SALES ENDED

[DETAILS](#)

Please join Alturna-Tech and Evanson Strategy Consultants at the World Famous Crane Resort on June 2nd for the Barbados Next-Gen Datacenter Summit where you will be introduced to four new and innovative technology companies Nutanix, Arista, GuardICore and Zerto who are challenging the status quo of the legacy datacenter way of delivering IT.

During the break out presentations you will learn how these companies are driving the next generation of datacenter IT transformation.

Topics will range from:

- The Benefits of Deploying a Hyperconverged Infrastructure
- Building a Scalable, High-Performance and Ultra Low Latency Network with Low Power Consumption and a Small Footprint for the Modern Datacenter
- New Strategies for Breach Detection and Security in the Software Defined Datacenter
- Fully Automated DR/BC for Virtualized Datacenters

Following the technology presentations – you are invited to happy hour to enjoy delicious drinks and appetizers while socializing with the technology vendors and local IT executives from the island.

Space is limited so please register early to guarantee your attendance - This is a private event and only open to those who receive an invitation.
